Be it decided by the Assembly of Elected Delegates,

College of Engineering Research Symposium Co-Sponsorship
Funding for the CERS Luncheon
(Decided: [ Y / N / A ])

Nature of the Situation:

This year the Engineering Graduate Student Council is organizing the 15th Annual College of Engineering Research Symposium (CERS). The event date is set for April 10th at the Nittany Lion Inn. The symposium features research papers, posters and oral presentations by undergraduate and graduate students in several engineering and science disciplines. CERS provides a professional platform for students to showcase their research to faculty members, industry representatives, and other student researchers from various engineering and science fields. At the conclusion of the event, research/travel grants are awarded to students in each presentation category.

This is an all-day event with a morning session and an afternoon session separated by a luncheon. This luncheon provides some time for talks by the CERS Chair, industry representatives, President Baron and the Keynote Speaker. The luncheon is open to participants, reviewers, speakers and attendees.

The main sources of funding for CERS are the College of Engineering and UPAC. In past years, the Engineering Graduate Student Council has also reached out to the GPSA and industry for
sponsorship of CERS. As we know UPAC funding cannot go towards the purchase of food for events and co-sponsorship from the GPSA helps pay for some of the cost of the luncheon.

**Recommended Course of Action:**
The Graduate and Professional Student Association commits to co-sponsor the College of Engineering Research Symposium by providing financial support in the amount of $1,750 toward the cost of food for the luncheon. This amount will be payable directly to the caterer of the event.

Respectfully submitted,

David Dopfel  
Delegate, Inter-College Graduate Degree Programs

Saratu Terreno  
Delegate-at-Large

The Graduate and Professional Student Association
